### VACANVY ANNOUNCEMENT

#### Site Manager –Civil Engineer

The Palestinian Water Authority (PWA) – Project Management Unit in Gaza invites experienced & qualified Palestinian to apply for the following position in the Project Management Unit (PMU).

#### **Project Background:**

**The proposed project is part of a coordinated international effort to address chronic poor water quality in Gaza and the significant increase in domestic demand expected in the medium term, which is projected to reach around 145 MCM a year by 2030.** PWA, in partnership with the European Commission (EC), the European Investment Bank (EIB), the Union for the Mediterranean (UfM), the Islamic Development Bank (ISDB) and the World Bank, formulated the Gaza Central Desalination Program (GCDP). The GCDP covers all Gaza and comprises two main components: (i) construction of a desalination plant with initial capacity to produce 55 MCM a year of desalinated water that can be doubled in the future; and (ii) construction of a north-south water carrier, including storage reservoirs to convey and properly blend the desalinated water with groundwater sources to achieve water supply meeting WHO guidelines for potable water. The latter component is referred to as “Associated Works.”

The Palestinian Liberation Organization (PLO) for the benefit of the has received financing from the World Bank toward the cost of the Water Security Development - Gaza Central Desalination Program: Associated Works Project Phase I (AWP-Phase 1), and intends to apply part of the proceeds for supporting the Project implementation and management capacity of the implementing institution (PWA).

The PWA is considering the recruitment of a qualified Site Manager/Civil Engineer who will contribute to the successful implementation of the project on fiduciary aspects.
